RE: File #1999-01790, Pine Rd, Tax Map 8 as Lot 43, Prince a.k.a. Betty's Brook

Dear Mr. Rosswaag:

On November 21, 2002, the Department of Environmental Services ("DES") Wetlands Bureau received an email from Tim Ferwerda with compliance photos and a scanned image of the plan attached, so as to identify where the photos were taken on the above subject property.

Based upon review of this information, it has been determined that compliance with RSA 482-A and applicable rules adopted under that statute, and specifically restoration of the site has addressed the deficiencies noted in the Letter of Deficiency WET 99-86 issued to you on October 12, 1999, have been met.

DES will close its enforcement file regarding the Property at this time. DES reserves the right to reopen this matter should additional information be received regarding additional violations on the Property.

Please be advised that further work in wetlands, waters of the state, the upland tidal buffer zone, the bank, flat, sand dune, or other areas of jurisdiction of the Department requires a posted, approved permit prior to carrying out such work.

Thank you for your assistance to bring this matter to a resolution. Should you have any questions, please contact the Wetlands Bureau at (603) 271-2147.

Sincerely,

COPY
